Projects

Terminal Assistant

Simple CLI based program

- The program was made while I was learning python.
- I tried adding every new thing I used to learn in that program.
- It contain a custom greet for me, friends, family and strangers. It had OTP option for strangers to use it.
- The OTP was obtained using cryptography on current time and it was useless after 5 minutes.
- It also has feature to ask query to wikipedia.
- The source code and many other projects of mine can be found on my github account.

Space Ranger

Old school game designed by me

- Made using Python only.
- Has many features like collecting coins different type of astroids missile etc.
- The game was build just to get knowledge of how programming works behind gui based apps and game.
- The source code and many other projects of mine can be found on my github account.
